TO VOL. XXIV,

ELECTRICAL REVIEW,

JANUARY 3, 1894, TO JUNE 27, 1894.

A Weekly Record of the Progress of Electrical Science.

13 PARK ROW, NEW YORK.

ARTICLES MARKED * ARE ILLUSTRATED.

A

*Annihilator, The Elliott Smoke, 2
Adams Electric Co., The, 10
Advance Information, 11, 23, 35, 47, 59, 71, 83, x of Feb. 21, 108, xiv of Mar. 7, x of Mar. 14, x of Mar. 21, x of Mar. 28, x of Apr. 4, x of Apr. 11, x of Apr. 18, xii of Apr. 25, x of May 9, xii of May 16, x of May 23, 272, 284, 296, 308, 320
American Institute of Electrical Engineers, Meeting, 11, 58
Advertising Tale, 20
American Electro-Therapeutic Association, Meeting, 22
Acme Portable Testing Set (Queen & Co.), 23
Advertisement, A New Electrical, of the Union Square Theater, 26
*Acoustic, An, Synchronizer for Alternating Machines, 35
Alternating Dynamos and Motors and Transformers, A Lecture Delivered by Dr. Louis Bell at Cooper Union, January 22, 1893, 69
Air-Core Transformers, by F. Bedell and A. C. Crehore, 76
Arc Lamp, A New Alternating, 81
Arrangements, Railroad, for Washington Convention, x of Feb. 14
*Attachment for Telephone Receivers, A Pneumatic, 92
*Acme Standard Voltmeters for Direct Alternating Circuits, 100
*Automatic Sechrist Switch, 105
*Arc Lamp, New Bergmann Alternating, 106
*Accumulator Plant at Germantown, Pa., A Chloride. J. Appleton's Discussion Before the National Electric Light Association, February 27, 28 and March 1, 1894, 127
*Arrester, Doane Lightning, 133
*Accumulator Street Railway System, 142
Action, Electrolytic, of the Return Current of Electric Railways, 143
Arc Lights on Incandescent Circuits, by L. B. Marks, Before the Washington Convention of National Electric Light Association, 145
*Aerodromic System of Transportation, 147
American Institute of Electrical Engineers, A Dual Meeting by Telephone, 148
Accident to John L. Martin, 153
*Apparatus for the Taking of Alternate Current Curves, by N. H. Genung, 163
*Arc Lighting, Scientific and Graceful, 169
*Arrester, Wurt's Non-Arcing Railway Lightning, 173
Armington & Sims Engine Co. Say Business is Better, 179
*Apparatus, National Telephone, 183
Ayer, J. I., Becomes Manager of Royal Arc, 189
*Apparatus, General Electric Co.'s Triphase, 202
American Institute of Electrical Engineers, Arrangement for Philadelphia Meeting, 211
American Street Railway Association, 212
*Ammeter, New Alternating Current, 218
*Arrester, The Chicago Spark, 231
American Institute of Electrical Engineers, Meeting at Philadelphia, May 15, 16, 17 and 18, 1894, 236, 249, 255
*Arnold System, 236, 240, 271
Armatures, Relative Advantages of Toothed and Smooth Core, Read at Philadelphia Meeting of American Institute of Electrical Engineers, by A. D. Adams, 252
Arresters and Recent Progress in Means for Protection Against Lightning, Discriminating Lightning, Abstract of a Paper Read Before American Institute of Electrical Engineers, Philadelphia, A. J. Wurts, 259
*Atomizer, Plumb's Electric, and Disinfecting Apparatus, 273
*Apparatus for Purposes of Construction, Electrical, 275
*Alternating Current System of Stanley Electric Manufacturing Co., 285
Advertising, About Summer, 288
Arrangement of Generating Stations for Metropolitan Electric Supply, 295
*Arc Machine, "Wood," 125 Light, 297
*Alternating Current Motor, The Stanley Electric Manufacturing Co.'s Two Phase, 299
Analysis of Some Electric Construction Bids, 302
American Electrical Talent, Comment on, 305
Association of Railway Telegraph Superintendents, Thirteenth Annual Meeting Began June 13 at Detroit, 306
*Arc Lamp, The Manhattan, 312

B

*Bushing Metal-Sheathed Interior Conduit Co., 16
Bimetallic Wire for Telephone Transmission, 41
Buckeye Decision, The, 52
Buckeye Electric Co.'s Views on Judge Ricks' Decision, 53
Book, A New, Dynamo Motor Building, 62
Bell Magneto Telephones for Sale, 64
Bracken Replies to President Gibbs on Battery Suit, 103, 146
Blow-pipe, An Electro-Oxy-Hydrogen, 104
Boat, Canal, Propulsion with Special Reference to Erie Canal, Abstract of a Lecture Delivered Before New York Electric Society, February 15, 1894, by Joseph Sachs, 120
*Bliss Trimming Press for Drop Forgings, 121
Bell Telephone Company Want to Increase Their Capital, 144
*Barrows System of Transportation, 151
*Brush Improved Dynamo, 161
Buckeye Electric Co. in New Quarters, 162
Bells in Electric Cars, 171
*Brandt Conduit Railway System, 175
Blindness, Hysterical, from Electric Flashes, 179
Buoys, Electric Light, for Mobile Bay, 183
Badge for W. J. Clark, Shrine, 211
Buckeye Electric Co. Wins Again, 225
Business Situation, 240
Battery, The Primary, 240
Bargains at Queen & Co.'s, 246
Business Situation, 254
Banquet, Postal Telegraphers', 265
Bicycle, A Good,
Brooklyn Electrical Society, 280
Board of Electrical Control, New York, 295
Beacon Vacuum Pump Co. Have Plenty of Orders, 301
Boston Incandescent Lamp Co. Defeated, 302
Buffalo Bill, Wire Fences, Electrical Currents and Dews, 312.

C

Conductor, Street Car, by Julian A. Moses, 1, 2
Corrosion, Electrical, of Underground Pipes, 3
Cosmical Electricity, Thoughts on, Abstracts of A Lecture Delivered Before the Electrical Section of the Franklin Institute, by Prof. Elihu Thomson, 4
Correspondence, 7, 19, 31, 43, 46, 55, 67, 79, 82, 91, 103, 115, 128, 141, 146, 150, 153, 155, 161, 170, 177, 189, 206, 215, 226, 229, 241, 244, 255, 257, 259, 267, 279, 291, 303, 305, 315
Canal, Erie, Electricity on, 7
Conspiracy at Indianapolis, An Alleged, 14
Calls, New Year's, by Telephone, 16
Columbia Lamps Reduced in Price, 15
Contemporary, Three Paragraphs About A, *Electrical World*, 19
Construction of Electric Railways, Regulations Prescribed by General Postal and Telegraph Administration for the, 20
Catalogues and Printed Matter Wanted at Leland Stanford, Junior, University, 20
*Counter, Telephone Conversation, A New, 20-21
Calendars and Holiday Souvenirs, 24
Colt, Judge, Grants a Motion Against De Khotinsky for Edison Electric Light Co., 25
*Cloud Projector, An Electric, on the World Building, 25
Cowles Electric Smelting Co. Will Not Consolidate, 28
Car Barns Burned at Cleveland, 28

*Conduit Railways, Practicability of Electric, Read Before American Institute Electrical Engineers, December 20, 1893, by A. Stetson, 32 33, 44, 45, 51, 70
Corliss Compound Engines for Electric Light Work, Read Before Northwestern Electric Association, Milwaukee, January 18, by E. L. Debell, 51
Carbons, German, 54.
*Cable, A Large Submarine Telephone, Successfully Laid, 61
Convention, Electric Light, 75, *85, 96, *97, *109-113, 114, 118
*Cable Covering Machines, 80
Communication Between Scotland and Ireland, Telephonic, 80
Contracts Awarded in Detroit, 81.
Chance for American Inventors, 84
Clark, Frank H., Elected Superintendent of United States Electric Lighting Co., 98
*Crocker-Wheeler Standard Multipolar Machines, 106
Cosmopolitan Magazine, A Valuable Publication, 115
*Cutter and Tool Grinder, Garvin's No. 3 Universal, xiii of Mar. 7
Car Tender, Darrach, xiv of Mar. 7
Club Building, New Metropolitan, Invitation to Inspect, 126
*Chloride Accumulator Plant at Germantown, Pa., J. Appleton's Discussion Before National Electric Light Association at Washington, February 27-28, March 1, 1894, 127
Conduit Ownership, Abstract of a Paper by Chas. H. Morse, Inspector of Wires, Cambridge, Mass., Before the Massachusetts Street Superintendents, 137.
Currents in One Conduit, Don't Put Too Many Electric, 141
*Chloride Accumulator Street Railway System, 142.
Current, Electrolytic Action of Return, of Electric Railways, 143
Contract, The Largest Electric Railway, 151
Current, Electric, from Waterfalls and Artesian Wells, 152
Cable Broken, A Submarine, 156
Contract, A Large, Cataract General Electric Co., x of Mar. 28.
Converters, Elkhart, 161
*Current Curves, Apparatus for the Taking of Alternate, by N. H. Genung, 163
Carbon Telephone Patents, The, 164
*Cutter, Improved Universal, and Tool Grinder, 173
*Conduit Railway System, Brand, 175
*Clutch for Arc Lamps, Improved, 179
Cable, A New Atlantic, 187
Capacity, Measurement of the, of Condensers with Alternating Currents, 193
*Car Starting Device, Ingenious, 198
*Clocks, Self-Winding, 199
Contemporaries, Anent Two Esteemed, 200
Condensed Compliments, 207
*Capstans, Electric, 209
Chicago's Electrical Department, by Fred. De Land, 215
Current Resistance, Alternate, 220
Coating of Incandescent Lamps, The Age, by Prof. Elihu Thomson, 224
Conduit System, Siemens & Halske, in New York City, 233
*Construction, Arnold System of Electric Power, 236
Convention of International League of Press Clubs at Atlanta, Ga., 239
Catalogue of Metropolitan Electric Co., 245
Canuck and the Telegraph, 245
Compliment from a Printer, 245
Carpenter Electric Company Wins a Suit, 246
Conduit System, A Question About the Siemen's & Halske, 247
Coal Situation, 254.
*Casting, A Large Iron, Builders' Iron Foundry, 259
*Cable, A Badly Twisted Telephone, 261
Corliss Engine Company Again Opens, 267
*Carriage, Cummings' Electrical, 269
Convention of The Missouri and Kansas Telephone Co.'s Employés, 277.
Currents and Fuses, Alternate, Read Before American Institute of Electrical Engineers, Philadelphia, Prof. D. C. Jackson and R. J. Ochsner, 282
*Current System, Stanley Electric Manufacturing Company's New Alternate, 285
*Central Electric Co.'s Store Complete, 292
Cabling, Quick, 295
Capital of the Bell Telephone Co., 297
Car Equipments, Price of Electric, 301
*"Cock" Arc Lamp, Details of the, 301
Conduit Electric Railway at Buda-Pesth, 301
Central Electric Co., Agents for the W. S. Hill Electric Co., 304
Comment on American Electrical Talent, 305
Cable Transmission, Quick, 315
Chicago's Elevated Road, Cost of, 317

D

*Dynamo, Ideal Direct Connected, 1
*Dynamos and Motors, Lundell Direct Connected, 9
Discoveries and Inventions, Reward for Meritorious, 10
Death of an Inventor, Anthony C. White, 23
De Khotinsky Lamp. Judge Colt grants Edison Electric Light Co. a Motion Against, 25
*Dynamo, Theory and Design of the Closed Coil Constant Current, Read Before the Electrical Section of the Franklin Institute, December 26, 1893, by Henry S. Carhart, 26, 40
Dawar, Professor, and his Experiments, 49
*Door Opener, A Novel Electric, 51
Decision, The Buckeye, 52
Direct Connected, Direct Current Generators, Advantages of, Read Before the Northwestern Electrical Association, Milwaukee, January 17, by W. N. Stewart, 57
Device, Automatic Stopping, for Street Cars, 64
De Laval Steam Turbine, Exhibited in France, 64
Date of Electric Light Convention, 66
Dynamos and Motors and Transformers, Alternating, A Lecture Delivered by Dr. Louis Bell at Cooper Union, January 22, 1893, 68, 82
Davis Electrical Works, The, Decision Against, 75
Definition of Steam, 76
Decisions in Two Important Cases, 77
*Duplex Safety Fender for Trolley and Cable Cars, 95
*Direct Connected Ball Engine, 105
*Dynamo, The Mather, 106
Decision, Important Tax, 107
Dynamo, Rewinding the, at Sing Sing Prison, 115
Delegates to Electric Light Convention, 119
Delegates, Western, 119
*Doane's Lightning Arrester, 133
Dynamos and Motors—Direct. A Lecture at Cooper Union, January 29, 1894, Being an Extract from the Second Edition of Practical Management of Dynamos and Motors, by F. B. Crocker and S. S. Wheeler, Delivered by Dr. S. S. Wheeler, 136, 150
Decision, An Important, on the Taxation of Corporations, 139
Decision, Another Incandescent Lamp, 141
Dinner, The Okonite, 153
*Dynamo Brush, Improved, of General Electric Co., 161
*Die Stock Machine, Improved, 167
*D'Arsonval's Experiments in Electric Physiology, 176
Devices, Electrical, for Gambling, 178
*Deposition of Carbon in Incandescent Lamps, by E. A. Colby, 198
*Device, Ingenious Car Starting, 198
Decision on Interior Wiring. Interior Conduit and Insulation Co. *vs.* Eureka Electric Co., 216
Decision, Important, on Electric Patents, 225
Decision in Oconto Lamp Case, 231
Distribution of Light, Anthony on, An Abstract of a Paper Before American Institute of Electrical Engineers, at Philadelphia, 256
Dynamo, Test of a Closed Coil Arc, Abstract of a Paper Read Before American Institute of Electrical Engineers, Philadelphia, by Robert B. Owens and C. A. Skinner, 258
*Dynamos, Unipolar, for Electric Light and Power, Read Before the American Institute of Electrical Engineers, Philadelphia, by Prof. F. B. Crocker and C. H. Parmly, 262, 270
*Dynamo, The Riker Multipolar, 271
Dinner of the Electric Club, 289

E

Engineering Association of the South, 2
Electrical Corrosion of Underground Pipes, 3
Electricity, Cosmical, Thoughts on, by Prof. Elihu Thomson, 4
Electrical Workers' University, Extension of, 5
Electric Light Plant for the Capitol at Washington, $200,000 to be Expended for an, 6
Exposure of Harness Quackery in England, 6
Elevator Indicators, Quiet, 6
Electricity on the Erie Canal, 7
*Electro-magnets, To Determine the Polarity of, 11
Electric Railway and Power Notes, 11-21, x of Jan. 24, 60, 76, 121, x of Mar. 28, 307, 311
Edson Recording Gauges, 12, 24, 36
Electrical Patents, x of Jan. 3, x of Jan. 10, x of Jan. 17, x of Jan. 31, x of Feb. 7, x of Feb. 14, x of Feb. 21, xvi of Feb. 28, xvi of Mar. 7, x of Mar. 14, x of Mar. 21, x of Mar. 28, x of Apr. 4, x of Apr. 11, 308, 320
Erie Canal, Governor Flower Recommends Electric Propulsion on the, 14
Electrical Workers' Union No. 3, Lectures of, 16
*Electrical Oscillators, Tesla's, 17
Electrical Age Starts Anew, 18
Electric Cars in Utica Have Few Accidents, 18
Electric Street Railways in New York City, 18
Electric Propulsion on Erie Canal Recommended by Governor Flower, 18
Edison Co. Granted an Injunction Restraining Waring Electric Co. from Manufacturing Novak Lamps, 19
Electric Light Flashes, 20, 38, 70, 81, 134, 149, 177, 191, 199, 230, 245, 253, 271, 275, 295, 307, 318
Electric Traction in Belgium, 20
Electric Mine Railroad at Bleiberg, in Corinthia, 22
Electric Traction in Japan, 29
Editorial Senectitude, 30
*Electrically, An, Operated Street Railway Switch, 32
Electricity and Windmills, 33
Electric Power on Erie Canal, Official Reports on the Tests of, 34
Etchings, Five Famous, x of Jan. 17
Electricity on the Canal near Rochester, 37
Electrical Men at Milwaukee Convention, 38
*Electric Pull Switch, Stirn's, 39
Electric Clowns, 43
Expiration of the Receiver Patent, 42
Engines for Electric Light Work, Corliss Compound, Read Before the Northwestern Electrical Association, Milwaukee, January 18, by E. L. Debell, 51
*Electric Door Opener, A Novel, 51
Electrical Investment, Trend of, Read Before Northwestern Electrical Association, January 18, by H. C. Thom, 65
Electric Pull Socket, Stirn's Universal, 65
Experiment, A Heroic, by Tyndall, Separating Light from Heat, 65
Electrical Signaling by the Telephotos, 69
*Electric Lighting of Public and Private Conveyances in London and Paris, 75
Electric Lighting at Rock Island, 76
Electric Light Convention, 75, *85, 96, 97, *109-113, 114, 118
*Exchange, A New Telephone, at Paris, 77
Electric Railroad from Leland Stanford, Jr., University to Palo Alto, Cal., A Project to Build an, 80
Engine, A French Rival to the Westinghouse High-Speed, 81
Electric Foremen's Association, 83
Electrical Men of Washington, 88, *89
Experiments on the Human Body, Two Interesting, 90
Electric Switches for Trolley Lines, 90
Electric Welding, 92
Electrical Measurements, A Lecture Delivered at Cooper Union February 5, 1894, by A. E. Kennelly, 92, 103, 143, 156
Electric Railroad System, Johnson-Lundell, 95
Electric Light, March of, Improvement, 102
Engine, Direct Connected Ball, 105
Electrical System of Signaling for Steam Railways, 106
*Electric Railways, Importance of Complete Metallic Circuit for, Read Before National Electric Light Association at Washington, D. C., February 27, 28 and March 1, 1894, by J. H. Vail, 116
Electric Lamp for the Orchestra, 121
Exhibits and Exhibitors at Convention, 122
Electrical Men, A Trio of Active, xvi of Mar. 7
Engine, Is This the Oldest, 128
Electric Propulsion on Canals in England, 134
*Electric Lighting of the World's Fair, A Lecture Delivered Before New York Electrical Society by T. C. Martin, 135
Electrical Circles, Here and There in, 140
Electrolytic Action of the Return Current of Electric Railway, 143
Effect of Heavy Gases in the Chamber of an Incandescent Lamp, Read Before American Institute of Electrical Engineers, New York and Chicago, March 21, 1894, by Prof. W. A. Anthony, 148, 166
Exposition, Antwerp International, 151
Electric *vs.* Horse Roads, 157
Electric Railways, 159, 173
Event at Electric Light Convention, An Interesting, 168
Electricity Flattering Female Vanity, by J. A. Moses, 168
Engine, The Oldest, 169
Electricity for Mail Carriage, 169
Electrical Devices for Gambling, 178
Electric Lighting, A Lecture Delivered at Cooper Union Hall, New York, February 14, 1894, by Prof. F. B. Crocker, 180, 192, 206
Electric Wire Perils, 181
*Elevators, Sprague-Pratt Electric, 184
Electricity for Frost Bite, 187
Electrolysis, Definition of, from *Daily America and Mercury*, 188
*Engine, Ball & Wood, New Type of Vertical Compound, 190
*Effect of Electrical Currents on Subterranean Pipes, Destructive, An Abstract of a Paper Read Before American Institute of Electrical Engineers, April 18, 1894, by I. H. Farnham, 195
Exhibition, International Electrical, at Paris, 197
Editorial Published in *Electricity* on Geo. M. Phelps, 200
Electric Railway Notes, 205, 219, 227, 244, 257, 268, 280
Electricity as Applied to St. Etienne, France, Industries, Report by Consul Chas. W. Whiley, Jr., 213
Electrical Development, 214
*Electrical Transmission of Power at Columbia Mills, Columbia, S. C., 227
Electrolysis, Railroad, 228
Electrical Society in Brooklyn, A New, 232
Experiments with Electric Traction in Berlin, 240
Electric Light and Power Controller, 243
Edison Companies of New York and Brooklyn, 252
Electricity in Lighthouses, 255
Experiments, David Salomon's New, 256
Electricity in Metallurgy, 266
Exposition of the American Street Railway Association, Thirteenth Annual, 273
Electricity Fires and the Press, 278
Electric Club, An Attempt to Revive the New York, 278
Electrical and Mechanical Engineering and Trading Co., 282
Electric Railways as Investments, 294
Electrolysis and Gas Pipes, 294
Electric Light Plants Pay, How to Make, Views of a Gas Man as Presented to the Western Gas Association, by I. P. Copley, 304
Electrical Unit Bill, How the Congressmen Viewed the, 319

F

Finances of a Year, 7
Funeral, An Electric, 13
Fuel Compound, A New, 16
Flower's, Gov., Message to Legislature Recommending Electric Propulsion on Erie Canal, 18
Fares Reduced, National Electric Light Association, to Washington, 27
Formenephone, The, 32
*Field's Multi-Diaphragm Telephone, 37
Firm of Fine Ability, Houston & Kennelly, 85
*Fender for Trolley and Cable Cars, A New Duplex, 95
*Factory, New, of Phillips Insulated Wire Co., 136
*Fan Motors, Holtzer-Cabot, 137
*Factories, The Model of the New York Belting and Packing Co., 157
*Feeder Panels for Electric Railway Switchboards, 161
*Fish, The Torch, 217
Fish Catching by Incandescent Lamps, 245
Fire in Toledo Telephone Exchange, 255
Fort Wayne Co. in Receivers' Hands, 294
Fort Wayne News, 298, 315
Fall River Boat "Priscilla," The New, 310

G

General Notes, x of Jan. 3, 206, 258, 279
General Electric Co. Moves to Schenectady, 15, 18
Governor Flower's Message to Legislature Recommending Electric Propulsion on Erie Canal, 18
Gauges, Edson Recording, 12, 24, 36
General Electric News, 31, 311
